The death last year of a 14-year-old Irish teen three weeks after he received Pfizer's COVID-19 vaccine has sparked an investigation that could take years, officials involved in an inquest into the teen's death said this week.

As part of the "considerable investigation," authorities said they will request safety information about the vaccine from Pfizer.

Joseph McGinty, a secondary school student from Achill Island, Ireland, received the Pfizer vaccine on Aug. 20, 2021. On Sept. 1, 2021, he was hospitalized overnight at Mayo University Hospital and discharged the following day.

On Sept. 8, 2021, McGinty revisited the hospital for review. He died at home on Sept. 13, 2021.

Patricia McGinty formally identified her son's remains on the day of his death but "has very little recollection of the morning in question," the family's attorney, Rita Kilroy, told the court.

The coroner involved in the case, Pat O'Connor, called McGinty's death "a matter of significant public concern."

"The circumstances of Joseph McGinty's death is that COVID vaccination was administered to him [and] that there appears to have been either a reaction or a significant change in his medical circumstances following the administration of the vaccine and that subsequently, unfortunately, Master McGinty died," O'Connor said in Monday's hearing.

Kilroy told the court this week, "We would perceive there to be a concern for public health and safety and potential for recurrence in two circumstances."

An inquest is a formal investigation conducted by a coroner in order to determine how someone died. The purpose of an inquest is limited to establishing the identity of the deceased individual as well as where, when and how they died.

At the request of Kilroy, O'Connor agreed to make a request for legal aid and legal advice for the McGinty family under Section 60 of the Coroners Act, 1962.

The inquest into McGinty's death will resume on Dec. 20.

Studies link COVID-19 vaccines, including Pfizer's, to negative health outcomes — especially among young men — including death.

In June 2021, The Defender reported on the death of 13-year-old Jacob Clynick just three days after he received the second dose of Pfizer's COVID-19 vaccine.

The Centers for Disease Control and Prevention declined to investigate Clynick's death, even though the death was reported to the agency's Vaccine Adverse Event Reporting System (VAERS).

Between Dec. 14, 2020, and Nov. 11, 2022, there have been nine deaths reported to VAERS following COVID-19 vaccines among children ages 6 months to 5 years, 31 deaths reported among children 5 to 12 years old and 133 deaths among teens 12 to 18 years old.

Last month, Florida Surgeon General Joseph Ladapo, M.D., Ph.D., recommended against mRNA COVID-19 vaccination of males ages 18 to 39 years given the results of a study that found an 84% increase in the risk of cardiac death among young adult males within 28 days of mRNA COVID-19 vaccination.

Since March, Florida has recommended against mRNA COVID-19 vaccination of healthy children and adolescents younger than 18.

On Sept. 30, Sweden announced it would no longer recommend COVID-19 vaccination for children ages 12 to 17 and in Denmark, COVID-19 vaccines are not recommended for anyone under 50 years old.

I just watched the video. There's no question this is a genocide. It is sickening to watch the MSN media, celebrities, politicians and the CDC flagrantly lie in order to keep pushing this horrific assault on humanity. At the beginning it was a bit hard to watch the actual pulling out of dead bodies blood clots that are actually inches long strands of white elastic-like material with blood clots clinging to them. Not an accident or any sort of other condition existing in humanity at any time before. Embalmers demonstrate this condition, and as autopsies are being denied.

-- At 20:37 to 27:00 min.whistleblower Lt. Col., a flight surgeon, states that a 10% increase in all cause mortality suggests of a catastrophic event. Indiana Life Insurance Co. says deaths are up 40% among the 18 - 64 year olds.

-- At 25:00 Sen, Ron Johnson addresses attorney for military whistle blowers, Tom Renz, who states we have substantial data showing that miscarriages increased by 300% over a 5 year average, a 300% increase in cancers and in neurological disorders,an over 1,000% increase. Our soldiers are being experimented on and in some cases killed he says. Additionally, pathologist, Dr. Ryan Cole MD mentions the significant uptick in cancers in the young reactivated or activated after 2nd, 3rd shot

Watching the fibrous clots being pulled out was hard but something we need to see and understand. Please everyone, start paying attention to your local paper obituaries. You will be surprised how many young people are dying. I live in a town of about 40,000 and it is nothing to see 5-7 young, under 60 die a day. As someone that studies genealogy, I have read obits for many years and have never seen this. Many if not most say "died suddenly" or "died unexpectedly" There is nothing normal about this.

I have to add one more thing. Consider the horrific condition of the blood of the deceased as demonstrated in the Stew Peters video above. Many of the still living vaxxed will want and need blood transfusions. What then will be, or already are, in specific 'special' blood supplies? In other words, an entirely different lab concocted, conductive (for tracking and efficient killing and incineration) and perhaps physical muscularity enhancing blood? As well, consider the 1,000% increase now in neurological disorders due to the injections as stated in the video. What might be their alternative? Brain chips affecting both the cerebral and peripheral nervous system enhancing reaction time and speed and not restoring cognitive function, they don't want them to think or feel. Soldiers are the most vaccinated and most injured now. In the video Lt. Col. Long states that she fears we will not have a standing army in 5 years. Maybe, that is if the WEF/NWO experiment is a total failure, by their standards anyway. Or perhaps instead this is leading to a transhumanized, remote controlled army of super soldiers in 5 years for these dogs of hell to play with like characters in a video game. I'm not a big supporter of the military, far from it (from Berkeley, peace, love, flowers and all that stuff), but these are young people and the very organization and individuals who, above all others, they would have trusted with their lives in the most trying of circumstances have instead murdered them whether they die due to this horrific experiment conducted on them or survive as remote controlled super soldier automatons.

Been following local obits since January. The amount of under 70 and most under 60 dying is unbelievable in my town of 40,000. Can't even imagine how bad it is in a large city. Died suddenly and died unexpectantly and most died at home? They want us to accept this is normal?

I've lost a handful of customers to this ' SADS' and it's been so difficult on the families who have been completely uprooted, lost their homes, had to move and so forth. The monsters don't even care about the side effects of their genocidal agenda. I also lost an old friend to suicide who I know was just so hopeless for our future and fed up with this narcissistic world. He just didn't want to be here anymore and I get that- totally!

As much as this is yet another tragedy, why suddenly some "mainstream fuss" - as in an "inquiry" - now? It is unbelievable how these criminals got away with this and continue to get away with it. Here in Australia we literally only have three Senators in the entire nation who are at these criminal bureaucrats like bulldogs. They are not letting go. They will never let go. They know what is at stake and they know this has been the most serious, heinous crime inflicted upon civilian populations (in an en mass global context) in history. But there are only three of them and they get next to zero mainstream media coverage. The only attempt to even get any of this to an "enquiry" stage was one short interview on a supposedly conservative media channel that was actually a hardcore pro-vax media outlet. So naturally the interviewer was towing the corporate line.

The only problem with this is those drug companies own the media by numerous ads. Check out how many programs are paid for by Pfizer. It is mine blowing. I watch ZERO mainstream TV. Everything they say is a lie. There is an excellent article or compilation of all the presidential executive orders that give the CDC and FDA to depopulate the U.S. Also gives FEMA the right to gather all citizens and put us in the quarantine, aka concentration, camps, indefinitely. And so much more. The author is Katherine Watt, published Nov. 21, 2022. Email: kgwatt@protonmail.com. I received this information from a subscription I have with James Roguski. He is a true national hero. He is actively working on what is really going on with our government and how we are being played by the W.H.O, W.E.F., United Nations, vaccine information etc. You can find him on substance plus he has down many interviews with Podcaster on Rumble. I hope this may help you.

Several years ago in 2001 or so, I contacted Katie Couric about the excessive advertising of SSRI medications and how dangerous they were and causing homicides, school shootings and more. I asked her to investigate and report on the correlation. Her blatant response to me was that she could not given how Big Pharma essentially owned their network. During my own investigations, I discovered all that you write about including the FEMA camps, WHO and more. Can you imagine how frustrated I have felt all these years knowing this and no one listening or even caring? Those to blame are those who ignored and denied the truth and who are currently sinking our ship.

I know Robert Kennedy could probably care less for Trump at this point, but if Trump did become president in 2024, the first and most responsible thing for him to do would be to immediately make Kennedy head of the vaccine safety committee, and mean it this time, without any payouts from pfizer.

Trump renegged on his commitment to investigate vaccines after a meeting with Gates... I lost faith in him doing the right thing right then and there. I think someone like Candice Owens should run (I can dream lol).

C Holly Wood → Cindy · 10 days ago
Sounds to me like Gates threatened him:

"Perhaps more concerning, Trump apparently had to be talked out of launching a commission to investigate whether vaccinations cause autism and other developmental disorders, a fringe conspiracy that has been debunked by the medical community. According to Gates, during both meetings, Trump asked "if vaccines weren't a bad thing because he was considering a commission to look into ill effects of vaccines." (Gates said he told him, "No, that's a dead end. That would be a bad thing, don't do that.") And, of course, no new report on Trump's mental state would be complete without a creepy anecdote about Trump and someone's daughter."

You are underplaying it. There are many more deaths, reported and unreported, in every demographic.

- A healthy 14-year-old boy from NJ was vaccinated on Feb. 24, 2022, suffered a ruptured cerebral aneurysm on Feb. 25th resulting in an emergency craniectomy, declared brain dead on Feb 26th, and died when ventilator support was withdrawn on Feb. 27, 2022. Medical report notes 'malignancy related therapeutic procedures.' (VAERS 2148498)

- A 19-year-old Mass Amherst lacrosse player, Aidan Kaminska, died unexpectedly on May 30, 2022. No information on cause of death is currently available. Many athletes from middle-school through professional leagues have died in the past year and a half "unexpectedly" of heart attacks and blood clots, many on camera. Cardio-vascular deaths are associated with the Covid vaccine, especially in young men. UMass requires all students be vaccinated for Covid.

- A 16-year-old Wisconsin asthmatic was vaccinated on March 19, 2021. She sickened on March 28th and died on the 30th of a pulmonary embolism. However her case was not entered into the CDC database until Sept. (VAERS 1694568)

"typically with a new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"

i wonder if Denmark is forcing people over 50 to get jabbed up? I'm just not understanding these kinds of cut-offs in age. It seems to me since it's causing so much destruction, why would you give it to those over 50? And elderly?

These 'rules' the world governments declare (which change and shift all the time), only make sense when $$ and power are brought into play. Money to line millions of rich people's pockets and Power grabs by governments and non-elected people all over the world - who appear to be working lock-step with one another.

They should also investigate the affect of the vax on fertility. The toxic spike protein has been found both in the ovaries of women and newborns and in the testes of men and male babies. We know the aim of the globalists is to kill and sterilize as many as possible

Why is everyone so focused on what is being done, when it was written thousands of years ago, and that is what we should be focused on, we are in the last times and no matter what man does on earth, the script has been written so it will be done. The euphrates river has dried up and the script stated that when the dries up, the four angels that are bound will be unleashed and the end times will start for the coming of the King of kings. All these plagues and disasters are all in the scriptures and the Christ deniers will be destroyed. Repent and sin no more, Save your family, take no commands to inject yourselves with the venom of serpents and Satanic forces. They are trying to destroy all of Gods creatures and Humanity as they take the orders from the great Satan, lord of the air and destruction of the earth that God has created and will torn down and a new jerusalem will be reborn. A new Heaven and a new Earth. This song was written for the chosen People.
People get ready
[Verse 1]
People get ready, there's a train a-comin'
You don't need no baggage, you just get on board
All you need is faith to hear the diesels hummin'
Don't need no ticket, you just thank the Lord
